Cat6a RJ45 Coupler Shielded (8x8) Panel Mount Style

Category 6 cable, commonly referred to as Cat 6, is a standardized twisted pair cable for Ethernet and other network physical layers that is backward compatible with the Category 5/5e and Category 3 cable standards.. Compared with Cat 5 and Cat 5e, Cat 6 features more stringent specifications for crosstalk and system noise. The cable standard also specifies performance of up to 250 MHz ...

Tripp Lite's 1U, 48port, Cat6 High Density Patch panel frees up valuable rack real estate by condensing a typical 2U 48 port patch panel into 1U of space. The unique design allows for easy punch down termination. Simply unscrew 4 slotted thumbscrews to remove the "upper deck" punch down array. Punch down the "lower deck" cables first, then replace the upper deck, and punch down upper array.

1U Rack Mount Cat6 110 High Density Patch Panel 568B RJ45

Unloaded High Density Multimedia Panels are available in 24- and 48-port sizes. Unloaded patch panels provide the ability to field configure panels using a variety of connector modules including category 5e/6/6A jacks, category 5e/6 inline couplers as well as a wide range of multimedia modules.

High Density Keystone Patch Panel - 48 Port - 2U

Cat 6a Cables. Our shielded Cat6a cables ensure fast and dependable 10 Gigabit network connections by protecting against electromagnetic interference (EMI/RFI) and noise.

Cat 5e Cables. Our wide selection of Cat 5e patch cables makes it easy to find the lengths and colors that you need to complete your network connections.

Cat 5e Cables | StarTech.com Canada

A patch cable, patch cord or patch lead is an electrical or optical cable used to connect ("patch in") one electronic or optical device to another for signal routing. Devices of different types (e.g., a switch connected to a computer, or a switch to a router) are connected with patch cords. Patch cords are usually produced in many different colors so as to be easily distinguishable, and are ...
