Cat behaviour includes body language, elimination habits, aggression, play, communication, hunting, grooming, urine marking, and face rubbing (in domestic cats). It varies among individuals, colonies, and breeds. Communication and sociability can vary greatly among individual cats. In a family with many cats, the interactions can change depending on which individuals are present and how ...

Cat behavior - Wikipedia

The cat (*Felis catus*) is a small carnivorous mammal. It is the only domesticated species in the family Felidae and often referred to as the domestic cat to distinguish it from wild members of the family. The cat is either a house cat, kept as a pet, or a feral cat, freely ranging and avoiding human contact. A house cat is valued by humans for companionship and for its ability to hunt rodents.
