The endothelium is the inner lining of the blood vessel that regulates arterial health.Maintaining its youthful integrity supports overall cardiovascular health as humans age.. This formula supplies two potent nutrients to support endothelial health: standardized pomegranate extract and an orally active form of superoxide dismutase (SOD).. Pomegranate supports healthy blood flow. 1-2

Leptospirosis is a zoonotic disease of global importance. 1 In recent years, endemic and epidemic severe pulmonary haemorrhage has increasingly become recognised as ...

Leptospirosis: a zoonotic disease of global importance

The most read article on MTHFR.Net is 'Methylfolate Side Effects'. That's unfortunate. Avoiding side effects caused by methylfolate is ideal. It's time I address it. How do we reduce the likelihood of methylfolate side effects? Before I spell some of the common causes of side effects induced by methylfolate, I should clearly state this is [...]

Preventing Methylfolate Side Effects - MTHFR.Net

Klotho is a membrane-bound protein primarily expressed in the kidney, mostly in the distal tubule and at a low level in the proximal tubule (see Fig. 1B), as well as in the parathyroid gland, choroid plexus, and sinoatrial node , , .Membrane-bound Klotho is a single-pass transmembrane protein with a 10 aa intracellular domain that has not been found to have a function in signal transduction.

Effects of Klotho on fibrosis and cancer: A renal focus on

Even though vitamins are viewed as a good 'natural' option, this past week I experienced how dangerous they can be. As you can tell by the title of my post, this week I have been trying to recover from vitamin A toxicity due to taking too much vitamin A after my Naturopath prescribed it. If you've read some of my previous posts, you know that I mostly follow a gluten free diet and take ...

How I Got Vitamin A Toxicity - Naturopath Prescribed High

Exposure device for the students. An exposure device with a special antenna placed on students zippers was used for generating the EMF (1 W peak output power and .50 mW/cm² power density), and the exposure emission was maintained at 2.4 GHz and 5.0 GHz with a pulse repetition frequency of 217 Hz for 365 days a year for hours at school and at home on the abdomen.
