Need help finding a Cat dealer near you? To use the Cat dealer locator below, simply enter your address and select the type of equipment you're looking for.

Cat | Find Your Dealer | Caterpillar

Marine propulsion is the mechanism or system used to generate thrust to move a ship or boat across water. While paddles and sails are still used on some smaller boats, most modern ships are propelled by mechanical systems consisting of an electric motor or engine turning a propeller, or less frequently, in pump-jets, an impeller. Marine engineering is the discipline concerned with the ...
