VOHC Accepted Products for Cats

There are approximately 86.4 million pet cats and approximately 78.2 million pet dogs in the United States, and a United States 2007–2008 survey showed that dog-owning households outnumbered those owning cats, but that the total number of pet cats was higher than that of dogs. The same was true for 2011. In 2013, pets outnumbered children four to one in the United States.

Several types of worms can infect cats. The four most common are roundworms, hookworms, tapeworms, and heartworms. Not only do these worms pose a danger to your cat, but some of them can also infect humans and all of them can infect other household pets, so in addition to deworming kittens, recently adopted cats, and cats with symptoms, all cat owners should discuss a regular program of ...

The BC SPCA recommends that cats live indoors. Indoor cats have a longer life span than those that go outside. Whether you choose to let your cat out or keep them in, know how to provide them with the best environment to keep them happy and safe.

Pet care and behaviour help topics | BC SPCA

The cat (*Felis catus*) is a small carnivorous mammal. It is the only domesticated species in the family Felidae and often referred to as the domestic cat to distinguish it from wild members of the family. The cat is either a house cat, kept as a pet, or a feral cat, freely ranging and avoiding human contact. A house cat is valued by humans for companionship and for its ability to hunt rodents.

Dental health is a very important part of your pet's overall health, and dental problems can cause, or be caused by, other health problems. Your pet's teeth and gums should be checked at least once a year by your veterinarian to check for early signs of a problem and to keep your pet's mouth healthy.

Q. How does FRONTLINE Gold kill fleas and ticks? A. FRONTLINE Gold has 3 secret weapons: fipronil, to take out adult fleas and ticks AND (S)-methoprene and pyriproxyfen to kill the next generation of flea eggs and larvae before they can develop into adult fleas. Once FRONTLINE Gold is applied, fipronil stores itself in the oil glands in your pet's skin.
