Craving Change prepares clinicians to use cognitive-behavioural (CBT) strategies that address emotional eating. The Craving Change program was designed by health care professionals, for healthcare professionals.

I'm a Clinician - Craving Change

The roles of healthcare risk and quality professionals* are evolving in healthcare organizations. In the past, the two functions often operated separately, and individuals responsible for each function had different lines of reporting—an organizational structure that further divided risk management and quality.

1. Introduction. In 1994, I wrote the following paragraph as the introduction to this paper: "An increasing number of people are using the Internet and, many for the first time, are using the tools and utilities that at one time were only available on a limited number of computer systems (and only for really intense users!)."
