Speech-language assessment is a complex process.

Prefer the CELF-5 because the CASL is very lengthy, hate the protocol, and there are too many outdated questions (phone booth!) and too many dead people questions.

Speech Therapy Evaluations: CELF-5 vs CASL | The Speech

Types of Educational tests. There are many different types of testing that can be done during an evaluations. They can be done by our school system or independently:

The key here lies in the psychometric properties of the test, which give us information about the reliability and validity of that assessment. We've tackled this question in part in our review of Denman et al.'s 2017 analysis of 15 different child language assessments. A couple of throwback articles, one by McCauley and Swisher (1984) and one by Plante and Vance (1994) also provide ...
