cell and molecular biology pdf

Cell biology (also called cytology, from the Greek ?????, kytos, "vessel") is a branch of biology that studies the structure and function of the cell, which is the basic unit of life. Cell biology is concerned with the physiological properties, metabolic processes, signaling pathways, life cycle, chemical composition and interactions of the cell with their environment.

Molecular Biology of the Cell (MBoC) Volume 19, Number 17, August 15, 2018. Molecular Biology of the Cell () is a premier journal for research in all areas of cell biology, from biophysics to genetics to neuroscience. Its 27 online issues per year include Special Issues in the important areas of Quantitative Cell Biology, Forces on and within Cells, and the Cell Biology of Stem Cells.

ASCB - The American Society for Cell Biology

MicroRNA 155 (miR-155) is an oncomir, generated as a noncoding RNA from the BIC gene whose promoter activity is mainly controlled via activation protein 1 (AP-1) and NF- κ B transcription factors. We found that the expression levels of miR-155 and programmed cell death 4 (Pcd4) exhibit inverse relationships in tongue cancer cells (SAS and AWL) and tumor tissues compared to their relationships ...

Biochimica et Biophysica Acta (BBA) - Molecular and Cell

The cell (from Latin cella, meaning "small room") is the basic structural, functional, and biological unit of all known living organisms. A cell is the smallest unit of life. Cells are often called the "building blocks of life". The study of cells is called cell biology or cellular biology.

Journal Impact Factor: 1.48. ISSN: 2471-8084. Biochemistry and Molecular Biology Journal is an international scholarly, peer reviewed journal presenting original research contributions and scientific advances related to the field of Biochemistry & Molecular Biology.

Biochemistry & Molecular Biology Journal - Open Access Journal

Cell Biology (CB), a journal of experimental cell investigation, publishes reviews, original articles and short communications on the structure, function and macromolecular organization of cells and cell components. Contributions focusing on cellular dynamics, motility and differentiation, particularly if related to cellular biochemistry, molecular biology, immunology, neurobiology, and ...

Cell Biology :: Science Publishing Group

Journal of Molecular Biology and Biotechnology is a peer reviewed journal that focusses on comprehensive and extensive coverage of research developments in the field of molecular biology and biotechnology. The journal prioritizes publication of current research pertaining to Plant and Animal Molecular Biology, Recombinant DNA Technology, Microbial Biotechnology, Disease Molecular Biology, Gene ...

Molecular Biology and Biotechnology - iMedPub

x During organ growth, cell activity needs to be coordinated. Di Mambro et al. identify a mechanism that acts in one tissue and yet coordinates activity throughout the root. Control of the levels of the hormone auxin, specifically in the lateral root cap, is sufficient to coordinate cell differentiation of all tissues thus ensuring coherent root growth.
