The Health Effects of Overweight and Obesity | Healthy

A new resilience industry is invading the workplace, with a mission to make feeble workers 'man-up' and shrug off the stresses and strains of work.

Resilience - Hazards magazine

Earthquake prediction is a branch of the science of seismology concerned with the specification of the time, location, and magnitude of future earthquakes within stated limits, and particularly "the determination of parameters for the next strong earthquake to occur in a region. Earthquake prediction is sometimes distinguished from earthquake forecasting, which can be defined as the ...

Dynamic game difficulty balancing (DGDB), also known as dynamic difficulty adjustment (DDA) or dynamic game balancing (DGB), is the process of automatically changing parameters, scenarios, and behaviors in a video game in real-time, based on the player's ability, in order to avoid making the player bored (if the game is too easy) or frustrated (if it is too hard).

Dynamic game difficulty balancing - Wikipedia

The Washington Group Short Set of Questions on Disability The next questions ask about difficulties you may have doing certain activities because of a HEALTH PROBLEM.

The Washington Group Short Set of Questions on Disability

Key Points About Regulation SHO I. Short Sales A. What is a short sale? A short sale is generally the sale of a stock you do not own (or that you will borrow for delivery). Short sellers believe the price of the stock will fall, or are seeking to hedge against potential price volatility in securities that they own.

Key Points About Regulation SHO - SEC.gov
