tailBeacon is designed to be a direct replacement for the common navigation light or nav/strobe found on the tail of many aircraft. tailBeacon has the form factor and installation characteristics of a traditional Grimes style rear position light, referred to as a Grimes model S or A-2064.. It is recommended that you download the tailBeacon installation and user instructions and carefully check ...

Last updated: 14 March 2019 About This Manual. This is version 11.30 of the manual to Plane Maker. The latest version of the manual will always be available from the X?Plane Developer web site.. Throughout this text, there will be cross-references to other parts of the manual, as well as hyperlinks to web pages.

### **Plane Maker Manual | X-Plane**

Con la locuzione glass cockpit (in italiano, letteralmente "cabina di vetro" - a causa della presenza di molti schermi di computer - o, più efficacemente, "abitacolo a visori") ci si riferisce ad una cabina di pilotaggio in cui le informazioni ed i parametri di volo vengono presentati ai piloti in formato digitale su display (CRT o LCD) invece dei tradizionali strumenti analogici.
