The overwhelming popularity of Dr. Goldratt's bestselling business novel "The Goal" (set in a manufacturing company) has led some to believe that the Theory of Constraints applies primarily to the manufacturing environment. Although initially developed in response to specific challenges in this sector, other TOC applications have been developed for a wide variety of industries using ...

A steam injector is typically used to deliver cold water to a boiler against its own pressure using its own live or exhaust steam, replacing any mechanical pump. This was the purpose for which it was originally invented in 1858 by Henri Giffard. Its operation was from the start intriguing since it seemed paradoxical, almost like perpetual motion, but its operation was later explained using ...
