The economy of Venezuela is largely based on the petroleum sector and manufacturing. In 2014, total trade amounted to 48.1% of the country's GDP. Exports accounted for 16.7% of GDP and petroleum products accounted for about 95% of those exports. Venezuela is the sixth largest member of OPEC by oil production. Since the 1920s, Venezuela has been a rentier state, offering oil as its main export.

The Aqueduct™ tools enable users to measure, map, and mitigate water risks around the world with its open-source, and high-resolution platform. It uses multiple data layers to display water risks at any given location. Current water risks can be compared to those in the future, to visualize trends for optimistic, pessimistic, or business-as-usual climate and growth scenarios.

Cummins will be the leading provider of electrified power in our commercial and industrial markets just as we are the leader in diesel and natural gas powered products.

Generators | Cummins Inc.

The primary objective of the Roadmap is to provide a blueprint for the development of a hydrogen industry in Australia. With a number of activities already underway, it is designed to help inform the next series of investment amongst various stakeholder groups (e.g. industry, government and research) so that the industry can continue to scale in a coordinated manner.
