i See-quence... Valentine's Day is an application providing a photo social skill story for individuals that need support in understanding the process of Valentine's Day.

technology rocks. seriously.: TONS of Valentine's Day Fun!

For long-term success in school, business and life, learning HOW to think is far more important than learning WHAT to think.. Yet rather than serve as the core of any education worthy of a rational human being, we have relegated the teaching of logic, argument analysis and critical reasoning to specialty courses in universities that reach too few students, too late in their education.

Critical Thinker Academy: Learn to Think Like a

School and public libraries have much more than informational resources available to youth. Whether you're addressing specific curriculum standards for a health unit or designing informal learning activities for a Saturday crafts club, electronic materials are available to facilitate learning.

Electronic Materials for Children and Young Adults

Computational complexity theory focuses on classifying computational problems according to their inherent difficulty, and relating these classes to each other. A computational problem is a task solved by a computer. A computation problem is solvable by mechanical application of mathematical steps, such as an algorithm.
