Thanks to Mike Watson @WatsEd for finding this from the BBC website. While the Premier League title race has fizzled out with "boring" Chelsea taking a 10-point lead, the same cannot be said for Algeria's top division. Only 11 points separate leaders Es Setif and bottom club NA Hussein Dey in Ligue 1.

The P versus NP problem is a major unsolved problem in computer science. It asks whether every problem whose solution can be quickly verified (technically, verified in polynomial time) can also be solved quickly (again, in polynomial time). The underlying issues were first discussed in the 1950s, in letters from John Forbes Nash Jr. to the National Security Agency, and from Kurt Gödel to John ...

Logical consequence (also entailment) is a fundamental concept in logic, which describes the relationship between statements that hold true when one statement logically follows from one or more statements. A valid logical argument is one in which the conclusion is entailed by the premises, because the conclusion is the consequence of the premises. The philosophical analysis of logical ...
